

TBE Member's Communications Preferences

We are now able to offer you options regarding which information you receive via email and which information you receive in print.

Your response is very important to us; we want to reach you in the way you find most convenient and helpful and that minimizes cost to our synagogue. You will always have the opportunity to call the office and change your selections at any time throughout the year.

Please complete a separate form for each e-mail address in your household.

2. Would you like to stop receiving the TBE Bulletin in print and instead receive it via email? The bulletin that we will be emailing to you is an exact duplicate of the printed version; privatized versions of the bulletin will be available on our web site and contain less information than the email bulletin you will receive.
